

Renowned winemaker Nic van Aarde shares never-before-heard stories and production details on demand

2023-2024

PEOPLE

Winemaker – Nic van Aarde
Viticulturist – Christo Crous
Owners – Adrian and Vanessa Vanderspuy

CULTURE

Stellenbosch's history and diverse terroirs make it a premier South African wine-growing region. Oldenburg's team of vineyard workers take pride in growing the quality grapes.

GEOGRAPHY

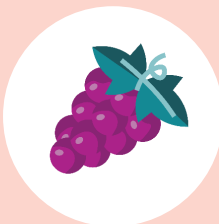

Rondekop is a hill in the middle of an elevated valley. Grapes are grown right around this hill. Some of the highest vineyards in Stellenbosch. Going up to 410m above sea level.

GEOLOGY

Rondekop has 4 different types of soils: Granite, Table Mountain sandstone, gravel and alluvial soils. Unweathered purple granite near the top of Rondekop. A very rare find in Stellenbosch.

VITICULTURE

24 Ha under vine. Every vine is treated individually. Team trained up to be vineyard specialists. Grapes are hand-picked.

WINEMAKING

Minimal intervention winemaking. Wild yeast fermentation. Reds see post-fermentation maceration, basket pressed and aged in french oak barrels. Whites are bunch sorted and whole bunch pressed.
